JOB DESCRIPTION

Job Title: Project Development Intern
Location: White Sulphur Springs, Montana (USA)
Job Type: Full-Time
Work Schedule: M – F with a 40-hour week
Term: Summer 2023 – Temporary
Reporting: TBD
Purpose of Role: The Project Development Intern will assist the Project Development staff in various projects to further develop the planning for the Black Butte Copper project.

Overview: This position is based at the Black Butte Copper Project, located 17 miles north of White Sulphur Springs, MT. Operations and development of the Project are owned by Sandfire Resources America, Inc. (“SRA”) and are carried out by its wholly owned U.S. subsidiary, Tintina Montana, Inc. (“TMI”).

The Black Butte Copper Project will be a showcase underground copper mine utilizing state-of-the-art technology and best practice management principles to delivery positive returns for shareholders and set a new benchmark in outcomes for all stakeholders.

This internship will provide instrumental training and hands on learning opportunities in mining engineering, metallurgy, and environmental settings for the underground mine development at Black Butte Copper. Interns will have the opportunity to work with all departments for interdisciplinary experiences. There will also be opportunities to volunteer and participate in social activities with the Company.

Job Description: Working with the Project Development Team to assist in developing and analyzing all aspects of the mine development by following Company financial policies, procedures, and internal controls. In this internship the individual tasks will be to:

- Field work including environmental monitoring, sample collection, and overlapping with the Geology Team.
- Assisting in data compilation of Lowry Pre-Feasibility Study.
- Assisting in auditing for GISTM.

- Assisting with the Deswik Training Manual.
- Aiding on all optimization studies in engineering, metallurgical, and environmental area of the development.

Responsibilities:

Areas of responsibility include and are not limited to:

- Working with team members to complete project development tasks by the Project Development Team.
- Follow all company procedures and protocols.
- Maintain the company culture of all work practices and protocols.

Qualifications & Experience:

The successful applicant will meet the minimum requirements which include:

- Junior or Senior in college majoring in Engineering, Metallurgy, Environmental Science, or related field would be preferred.
- Strong analytical problem-solving skills.
- Organize and work with large amounts of information efficiently.
- Attention to detail and accuracy.
- Willingness to learn and development new skills and knowledge.

Company Property & Compensation:

For this position, the company will supply the following:

- Laptop.
- PPE (as needed).
- Company housing for the summer internship with all utilities included.
- This internship is paid hourly.
